EDUCATION

B.Tech in Information Technology

Shree Swaminarayan Institute of Technology, Gandhinagar

12th Science

GSEB Board

TECHNICAL SKILLS

Languages: C, Python, JavaScript

Web Technologies: HTML, CSS, Node.js

Core Concepts: Data Structures & Algorithms

Domains: Cybersecurity, Artificial Intelligence

Currently Learning skills-

Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, Cybersecurity

SOFT SKILLS

Communication, time management, leadership, teamwork, event management, adaptability, creative thinking, and problem-solving ability

PROJECTS

1. SkyBridge

- Developed a cybersecurity-based project to enable secure sharing of large files.

2. Exam Seat Finder System (ESFS)

- Developed a full-stack web application to help students quickly find examination seat details using enrollment numbers.
- Integrated frontend and backend with Excel-based data processing for dynamic search functionality.
- Designed a responsive UI with proper validation, error handling, and accurate data retrieval.

3. Dead Phone Emergency Alert System

- Designed an innovative emergency alert system to send the last known location during low battery or shutdown situations.
- Created system architecture, block diagrams, and communication workflow.
- Focused on real-time, safety-oriented emergency response solutions.

4. Yatra Web Application

- Built a full-stack location-based web application to display nearby places within a 50-meter radius.
- Implemented category filters such as Spiritual, Food, Parks, and Historical places.
- Integrated map navigation for route guidance.
- Developed both frontend and backend for real-time location handling.

5. Smart Placement & Learning Roadmap Website (Internship Project)

- Developed a full-stack platform where students can input their skills and check internship eligibility.
 - Implemented a skill-based percentage tracking system to measure placement readiness.
 - Designed personalized roadmaps to guide students toward complete skill development.
 - Built frontend UI and backend logic for data processing and progress tracking.
-

ACHIEVEMENTS

- Secured 1st position in a college-level hackathon.
 - Participated in GTU-level volleyball and athletics competitions.
 - Achieved 1st rank in a college-level volleyball competition.
 - Secured 3rd rank in a college-level Satoliya competition.
-

CERTIFICATIONS & ACTIVITIES

- GTU Zonal Volleyball Certification
 - GTU Interzonal Volleyball Certification
 - Hackathon Winner Certification
 - First Prize at Techfest (Adani University)
 - SAP Certified
 - Hosted and volunteered at Code Unnati Innovation Marathon
-

HOBBIES & INTERESTS

Athletics, swimming, volleyball
